Eagles Home Learning Tasks – Thursday 26th March

Maths – If you **are not** in the below groups, please log-in and complete the classwork cities which have already been set up for this week. You can also go to TTRS and practice your time tables too.

Maths - for children in **green**, **yellow** and **white** groups

- Start by practicing your tables on TTRS. Remember the school postcode is RG9 6PR.
- Then, I would like you to practice your new knowledge of ratio by completing some problem-solving questions from 'Target Your Maths'. The questions are in a separate pdf on the class page of the website.
- Decide which column you want to work on and have a go.
- I have put the answers in the 'answer' area, further down the class page.

REMEMBER:

There is an **information sheet** on ratio and proportion, with fact file images and a link to a YouTube video introducing the concepts. You might want to look at these first – it is on the class page of the Frieth website.

English – for all

On Thursdays and Fridays you would usually complete a writing task in school. So today, I would like you to start a new writing task. You can choose one of the following to work on today and tomorrow (Friday 27th March):

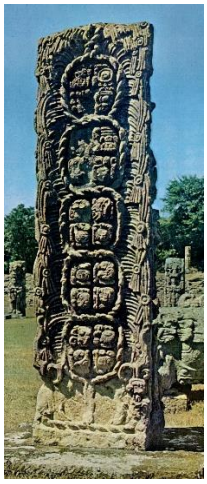
- Write an Amazon book review for a book that you have recently read. If you email it to the school (FAO Mrs Goodchild), I can try and upload them onto Amazon for you!
- Write a diary extract for what you have been doing this week at home. Remember to include your thoughts and feelings and to use informal devices.
- Write a letter to a member of your family/member of the community or to me (again you can email it to the office).

- Write a setting description of where you are or an area that you can see outside.

<u>Art – for **all** pupils</u>

For art, Mme Reynard would like you to plan/draw your Mayan stelae.

REMEMBER

You discussed Mayan stelae with Mme Reynard before the end of term. You discussed how you could design your own, telling the story about your life/part of your life.


- You could also think about where you would place your stelae and why.
- If you wanted, you could have a go at making your stelae!
