Dear Parent/Guardian,

**New year, New content!**

With 75% of jobs in the future that will involve the use of technology and a shortfall of experts to share their wisdom, we have set up **Tech Club** to help children **excel in the STEM subjects** and provide them a first-class education using the latest cutting-edge technology.

Building technical and creative confidence, Tech Club equips children with the technical knowhow to solve real world problems. All Tech Club staff are **DBS Checked** who are enthusiastic specialists in this field.

Activities include, video game design, invention building, robot programming, movie production, digital music creation and much more...

If your child has not attended the club before **now is the perfect time to enroll**, if your child has attended previously then they will be pleased to hear that we have some new exciting challenging differentiated content.

**When is it?**

**Tuesdays, 3:15pm - 4:15pm, starting 18th September 2018.** For full dates please visit our website. We have created this so dates are coherent between parents, schools and ourselves.

**How do I enroll?**

Spaces work on a first come first serve basis. We have now introduced a lower cost monthly payment method of £30 per month or termly payment option available. To enroll simply visit
