Tuesday 14th June 2016

Dear Parents,

Thank you to all the parents who took part in our annual survey. The results and summary information are now available on the school website in the parents drop down menu.

Following this survey, we would like to gather further clarification on communication between the school and the parents. Since last year we have acted on parent feedback to improve the communication from the school, particularly with the new school website, and we wish to continue that improvement. The following list is not exhaustive, but demonstrates the ways we currently communicate with parents on a both formal and informal basis.

General and curriculum communications

- Annual cohort meetings and information given in September
- Termly class curriculum letters
- New website updated weekly and with news feeds
- Class pages with curriculum information
- Whole School Meetings
- Emails and reminders about upcoming events
- Letters about upcoming events and trips
- Parent representatives
- PTA newsletters

Formal Progress Communications

- Termly work-share afternoons for parents to share the work and progress in books with their child/ren
- 2 Parent consultation evenings per year
- 1 formal written report at the end of the year

Informal Progress Communications

- Additional meetings upon request from parents or teaching staff
- Additional meetings with the SENDco for pupils with Special Educational Needs
- Conversations on the gate before and after school
- Class assemblies
- Exhibitions of project work
- Responses to parent emails

If you have any further positive suggestions on other forms of communication you would ideally like to have in addition to those listed above please let your parent representative know so that your suggestions can be collated, passed on and considered by the staff and the governing body PR committee when they next meet.

Yours sincerely

Mrs Jo Reid
Headteacher
